## TO-DAY'S CABLES.

(Reuter's Service to the China Mail.)

### THE "EGYPT" INQUIRY.

#### SHIPS OFFICERS' EVIDENCE.

##### CONDUCT OF THE CREW.

LONDON, July 26.

At the "Egypt" enquiry to-day Furner Burrows, said he was satisfied that the crews were efficient in boat drill. He mentioned that the lifeboat he commanded contained forty natives and said it would have been difficult to get them out. He admitted that they were allowed to stay in the boat while women had to climb down ropes.

Third Officer Brown explained that the absence of a lifejacket from his cabin was due to the fact that he ordered it to be taken out because he wanted the rack for his boots. (Laughter.) He said he found half a dozen passengers sitting on the deck rail and not attempting to slide down to the boat. They asked what had happened and he replied "Well we pushed them." Brown thought he was ninety minutes in the water.

A coloured barrister instructed to watch the proceedings on behalf of the Indian sailors complained of the unfairness of some of the questions about "these poor men."

French, supernumerary second officer, mentioned a boat where there was only one white man and all the others were natives. Asked were the natives towards French replied "They were very desirous of saving their lives." He was rescued after three hours in the water clinging to a spar. Cross-examined, he declared that he cleared out sufficient natives to make room for the passengers around him.

Halliday, supernumerary third officer, deposed to cutting several boats free. As one boat swung out 30 or 40 natives jumped for it. Witness, with a passenger, managed, after twenty minutes in the water to get an empty boat with which they picked up twenty-five persons mostly natives.

The inquiry then adjourned.

### GERMANY'S TROUBLES.

#### SERIOUS POLITICAL SITUATION.

BERLIN, July 26.

A communique states that the serious political situation consequent upon Bavaria's refusal to carry out the law for the protection of the republic has been considered at several meetings of the Central Government. Ministers absent on leave have been summoned to Berlin because it is deemed advisable to hear the views of all the members of the cabinet before the final decisions are taken. The communique adds that the government will resolutely and calmly protect the rights of the Empire.

### HOME ENGINEERING INDUSTRY.

#### FRESH TROUBLE FEARED.

LONDON, July 26.

There is a possibility of fresh trouble in the engineering industry. A ballot taken by the A.E.U. the National Union of Foundry workers and the National Federation of General Workers resulted in 43,937 votes for and 70,900 against acceptance of the employers' proposal to reduce the war bonus by three instalments of five shillings and sixpence each in the next three months beginning on July 31. Representatives of the Union are to meet the employers on Thursday to discuss the situation.

### INDIA.

#### SWADESHI AGAIN.

CALCUTTA, July 26.

After five months lull, the non-co-operators have resumed the picketing of shops selling foreign cloth. There is considerable excitement. Traffic was held up. Twenty arrests were made, without disturbances.

### TURKISH PASHA MURDERED.

#### AT TIFLIS.

CONSTANTINOPLE, July 26.

The assassination of Djemal Pasha, the Turkish adviser to the Afghan army, formerly commander in Syria and Palestine, is reported from Tiflis.

### AVIATION ON THE MARCH.

#### THREE KILLED.

GENEVA, July 26.

An aeroplane on the Casablanca-Toulouse mail service took fire and crashed at Gaudix. The pilot and two passengers were incinerated.

### THE DOLLAR.

To-day's closing rate 2/7 1/16.  
To-day's opening rate 2/7 1/16.

### COMMONS DEBATE RUSSIA.

#### PREMIER TELLS FUNNY STORY.

LONDON, July 26.

The Commons had a debate on the Hague conference. Mr. Clynes urged that Russia's new economic policy would amply justify Britain in promoting an issue of credits to assist Russia.

Mr. Lloyd George thought the conference represented a very great advance towards a final solution. Russia would not get any credits until security was established. Government loans to Russia were in any case impossible. The Russian Government must, before recognition could be accorded, establish her bona fides by the restoration of confiscated properties or compensation to the owners. The Russian representatives at the Hague were taking back this proposition. He earnestly hoped their government would give an unequivocal answer and act thereon. Things would not improve in Russia until she called in the civilised world of western brains, trade, and skill.

Referring to the state of Russian currency, Mr. Lloyd George said an Englishman recently returned from Russia told him that he gave three million roubles as a tip to a couple of porters. They turned round and asked: "Is that the sort of payment you give an honest Bolshevik?" (Laughter.) The Premier concluded with an optimistic reference to the better spirit of co-operation in Europe whereby alone peace and prosperity could be restored.

### WELSH BY-ELECTION.

#### PROVIDES COALITION'S TWENTIETH DEFEAT.

LONDON, July 26.

The by-election for Pontypridd resulted:—

Mardy Jones (Labour) 16,830.  
T. A. Lewis co-Liberal 12,550.

The vacancy was due to the appointment of Mr. Lewis as co-Liberal whip.

LATER.

Pontypridd makes the twentieth coalition by-election defeat. It is noteworthy because it has happened that Wales excludes a Whip from the Commons. It was thought a safe seat but the miners' anger against the government was probably responsible for the defeat as the constituency is predominantly a mining one.

### ECONOMY AXE WANTED.

#### HOLLAND LOOKING FOR A GEDDES.

THE HAGUE, July 26.

No difficulties are anticipated in regard to the constitutional measures referred to in the speech from the throne. Greater interest is centred in the measures for the next session as Holland is greatly burdened with taxation and the revenue is diminishing. The Cabinet is reconstructing and it is hoped that a strong man will be found to wield the economy axe ruthlessly.

### A NEW WAR.

#### BOLSHEVIKS THREATEN AFGHANS.

ALLAHABAD, July 26.

A message from Tehran says that it is rumoured that trouble is impending between the Soviet government and Afghanistan. It is reported that Bolshevik troops are massing on the Afghan frontier but probably against Ever Pasha.

### RUBBER RESEARCH.

#### NEW LABORATORIES OPENED.

LONDON, July 26.

Opening the British Rubber Manufacturers Research Association's new laboratories at East Croydon, Lord Colwyn said that the rubber manufacturing industry was only in its childhood. He was confident that the prosperity of the rubber industry would be restored in time.

### PRICE OF COAL JUMPS.

#### EFFECT OF U.S. STRIKE.

LONDON, July 26.

All classes of coal rose five shillings to-day as a result of the demand from America. Anthracite reached sixty-five shillings per ton, a post war record.

### OBITUARY.

#### THE VICTOR OF MALMAISON.

PARIS, July 26.

The death has occurred of General Maistre, the victor of Malmaison.

## AS OTHERS SEE US.

## "THE TRADE OF HONGKONG."

(From The Sigsbee and Shipping.)

Hongkong has often been described, and not inaptly, as the door of the Far Eastern market. Certainly its position at no great distance from the Chinese coast renders it of great value, not only as a port of call for steamships, but also as an exchange mart and a distributing centre for the produce of Asia and the manufactures of Great Britain and America. Its utilities in this direction make Hongkong a useful barometer as indicating the trade movement between East and West. We have before us two interesting reports which bear upon the subject. One, which discusses the trade of Hongkong for 1920, is compiled by the American Consul-General at the port, and for the other the Superintendent of Imports and Exports is responsible. With regard to the former, we may point out that American officials abroad are, as a rule, very keen observers, who are trained to put their fingers on the pulse of the trade machine and so diagnose with fair accuracy the trend of international commerce. Though primarily intended for the furtherance of American business, the fact that the reports are widely available ensures them being of assistance to the merchants of all nationalities, a fact which much enhances their value. Of course, the chief activity of Hongkong is transshipment trade, and concerning this feature of its business the Consul-General remarks that 1920 was a year of violent fluctuations, not only in this class of business, but also in exchange and in the general prosperity of the colony. The first quarter of the year showed a larger trade than any other quarter on record; the last quarter was among the worst in the history of the colony. In February the Hongkong dollar rose until it was worth more than the American dollar; by December it had dropped about one-half in value. Fortunately, the more important of the local industries, especially ship repairing and sugar refining, had a good year throughout. In shipping, a record was established: the number and tonnage of vessels entering and clearing being larger than in any previous twelve month period. Further, the showing made by the first half of the year was more than good enough to balance the poor results of the second. Judged by its total showing, therefore, the

year was the best that Hongkong has experienced. The United States furnished a very large portion of a number of important imports, among them—ginseeng, aniline dyes, artificial indigo, wheat flour, confectionery, canned fruits, condensed milk, liquid fuel, iron and steel nails, electrical machinery, industrial machinery, iron and steel bars, iron and steel plates, wire, tinplates, zinc, kerosene, lubricating oil, railway materials, cigars, tobacco, motor cars, motor-cycles, tyres, boots and shoes, cutlery, electro-plated ware, electrical accessories, upper leather, knitting and sewing machines, and fancy soaps. The United Kingdom, however, had the bulk of the trade in sheet and pane glass, biscuits, charcoal, bolts, malt liquors, spirits, wines, boilers, pumping machinery, ships' machinery, tools, boiler tubes, angles and tees, pipes and tubes, iron and steel sheets, paints, varnishes, piece goods (except silk), cigarettes, shirts, belting, sewing cotton, furniture, photo goods, stationery and hand tools. Japan led in the supply of chemicals, fish and fishery products, refined sugar, coal, bass sheets and plates, copper bars, silk, hosiery, bottles, fancy boxes, clocks and watches, electric lamps, glassware, haberdashery, paper, common soap and cotton and woollen yarn. With regard to the trade of these three countries through Hongkong, the United States was the best customer for camphor, cassia, beans, fish and fishery products, grains, sugar, tin, manganese, wolframite, peanuts, vegetable oils, silk, tobacco, bamboo and bamboo-ware, chinaware, embroidery, fire-crackers, human hair and rattan and rattan furniture. Turning to the shipping engaged in the conduct of this great tranship business, we find that during 1920 no fewer than 4,807 vessels, excluding native-owned craft, of 8,801,620 tons, entered the port. The Japanese percentage was 50, and the Japanese 26. The entries of vessels under the Japanese flag were 925, of 2,059,712 tons, as compared with 1,149 ships and 2,111,341 tons in the previous year. It is interesting in this connection to note the part played by the United States merchant marine. American shipping at Hongkong more than doubled from 1919 to 1920, the rate of increase being greater than that of any other nation. The entries of American vessels in 1920 were 286, of 963,448 tons; in 1919 they were 151, of 418,869 tons; in 1913 they were only 73, of 270,987 tons. In 1913 the United States was sixth in tonnage entering the port. It is gratifying to

## COMPANY MEETING.

August 18.—Union Insurance Society of Canton Ltd. Queen's Buildings at noon. British Traders Insurance Co. Ltd., Queen's Buildings, 12.10 p.m. China Fire Insurance Co. Ltd., Queen's Buildings, 12.15 p.m.

note that Great Britain has held its own in some of the chief imports, notably ships' machinery and engines. Of ships' machinery imported we supplied 95 per cent, and the United States only 3 per cent, and we were also well ahead in engines other than locomotives, as we were in electrical machinery and machinery tools. The American Consul-General sums up the position in the following words: "With a return to normal conditions, it is considered certain that there will be a large expansion of the trade between the Hongkong field and the United States. Until this happens, however, America is likely to feel the competition offered by the producing countries of Europe, whose own currency is depreciated to a point where it offers favourable terms for Hongkong buyers. There are few markets which are more friendly to American goods and few in which such prospects for future development can be found." The other report we have mentioned deals with the import and export trade for 1921. The statistics of values cannot, however, be compared with those of the previous year as given by the American Consul-General, because different systems of conversion have been adopted for changing native currency to sterling.

## The China Mail.

POSTS, JUSTICE, PUBLIC SERVICE.

HONGKONG, THURSDAY, JULY 27, 1933.

## OPEN LETTER TO THE TRAM COMPANY.

Gentlemen,

On behalf of the Government of this Colony, which is too busy just now to bother with you, but will attend to you presently, the China Mail has the honour to demand of you the following information:

(1) How many cars can your present car-barn or barns accommodate?

(2) How many cars (in working order) have you?

(3) How many passengers do you carry (average) each day? Give figures on which average is based.

The reason for requiring this information is that our clients desire to ascertain if you have enough rolling stock, and if you have, why you do not appear to use it. If you have not enough, it is desired to know why you do not get it.

Your present service may be up to schedule, though we do not believe it is. In any case it is glaringly inefficient for a public utility in a city like this.

Overcrowded cars, with people standing, are too frequently observed. On the upper decks you have a conspicuous

notice that 20 passengers is the maximum, and that standing is not allowed. On the other decks you forbid standing in the passages. In neither case are you ever seen to make any attempt to enforce your own rules.

You apparently sell monthly tickets to commuting passengers without taking any trouble to satisfy yourselves that you are in a position to give them seats.

Every passenger who pays is entitled to a seat, and to enjoy that seat without some strap-hanger standing on his toes.

Why not run cars in couples? That, however, is a matter for yourselves. What you must do is to stop the disgraceful overcrowding, which is against public safety, and cannot be sanctioned by Government.

Is it because you lack housing for them that you do not get more cars? If so, hurry up and get more housing. The public here has been indulgent with you over the class of car you provide, with their comfortable seats and inadequate elbow and knee room.

It has been complained when representations have been made that "local conditions" are against a better type. But it will not long tolerate the present overcrowding. It is murmuring already. We are its echo. Presently it will cry aloud; and the Government will act.

You do not want any prosecutions, do you?

Public utilities in Hongkong have been spoiled by indulgence, yours among them. In an up-to-date city with a live community you, with your present service, would not last more than a few months, and you know it.

Take your time about improving those tram tops. You've taken a lot already, while promising to think about it; but we are long-sufferers. You may take more, and we will still show patience. Improve the cars if you think fit and when you think it is really advisable. We waive that point. But get more rolling stock at once, and put it on at once.

This overcrowding is outrageous, unhealthy, unsafe, unlawful, is a serious annoyance and discomfort to your patrons, and a disgrace to you as caterers.

It isn't as if this was a big metropolitan proposition. Amateurs ought to be able to run a street car system in a place like this, as well as you do.

Get busy, Humble. Give us more cars. Give us, in short, the seats we pay for. Or get out, and let somebody else do it.

## LOCAL AND GENERAL.

Mr. Charles Bond is still in hospital.

The Editor of the China Mail is in Canton to-day.

Mr. James Dalziel has purchased the well-known yacht "Floer."

There is much talk of turtle hunting, but no bags are reported yet.

Mr. R. E. Bellios, who expected to return in November, will now probably spend the winter at home.

Among local residents sailing by the R.M.S. "Empress of Canada" are Prof. and Mrs. E. Danenberg, who are taking a holiday in the United States and Canada.

The master of a shop at No. 30 Ontai Street, has reported to the police that one of his joks absconded yesterday with \$203 which had been entrusted to him to pay to another shop.

It is reported from Shanghai that the Chinese General Chamber of Commerce there has addressed a letter to the Portuguese Minister urging an early settlement of the Macao question.

A Chinese gentleman living at No. 8, Pokfulam Road has reported to the police that two of his servants absconded yesterday taking with them \$140 in cash, which was stolen from a drawer in a writing table in his room.

A Chinese lady living at No. 3, Paktsze Lane reports that someone entered her cubicle during last night and stole a cash box containing jewellery and money to the value of \$192. She did not discover her loss until the morning.

The death took place at her home in Kowloon, yesterday, after a short illness, of Lillian Edith, the little daughter of Mr. and Mrs. Southern. The sympathy of a large circle of friends will be extended to the bereaved parents. The funeral took place at Happy Valley this morning.

Mr. H. O. Ottawell, British Consul at Yunnanfu, with Mrs. Ottawell and family will leave Hongkong for Shanghai by the R.M.S. "Empress of Russia" early in August. Travelling by the same steamer will be Mr. J. Gibbison of the local office of the C.P.S., who is going to Vancouver.

A 19-year old Chinese girl was yesterday admitted to the hospital suffering from the effects of an immersion in the harbour, received through falling overboard from the Yumati ferry launch "Eeyim" in midstream. She was rescued by a seaman of the launch who jumped in after her and kept the girl afloat until both were hauled back into the launch.

The new telephone exchange on the Peak will be opened for calls on the 29th inst., after which date the Hongkong exchange will be known as Central; and when calling up a number, subscribers will have to give the name of the exchange—Central, Peak or Kowloon—to which the required number belongs. Until the new directory is issued however, the present numbers will serve the new exchange.

Playing at Canton on Monday, the baseball nine of the University of California Glee Club defeated the Canton All-American aggregate by 14-1 in a fast game. The Californians played in big league form and knocked their opponents to a standstill. It was the best ball game seen in Canton for a long time, and the varsity lads made a tremendous hit with the large gathering of fans.

## COURT MARTIAL.

## R.G.A. CORPORAL CHARGED.

Pleading not guilty to charges of being out of bounds on July 15 Corporal J. Millar, R.G.A., was brought before a District Court Martial this morning. The Court comprised Major T. Lawes, R.G.A., Capt. Cross, Kings Regt., and Lt. O. R. Wallis, R.G.A.

Major O. L. Hickling prosecuted and Lt. Thornton defended. Sgt. Major Williamson, R.G.A., spoke to receiving a report that prisoner had been placed under arrest for being out of bounds in the Wanchai district on the 15th inst. The accused had been out of bounds during his period of duty. Accused was aware of the fact that the Wanchai district was out of bounds, as the information had appeared in various orders.

A corporal of the Kings Regt. said that on the 15th he was on police duty in Wanchai district. He saw the accused in Sampson Street, which was then out of bounds to all troops. He took his number and name and ordered him to return to barracks.

Answering questions by Lt. Thornton witness said accused was about 20 yards up the street. A crowd of Chinese drawing water was in the street.

Addressing the Court Lt. Thornton said that on the day in question, accused having completed his duty went to his bed. Having a severe headache he decided that a blow in a ricksha would do him good. He engaged a ricksha at the bottom of Seven and Sirpenney Hill and proceeded along the Praya East. In Sampson Street he saw a crowd and a policeman. Thinking there might be trouble he went to assist the police. He was then seen by the Corporal and ordered to return to barracks. This order was complied with. He was only in the street four minutes. On pay day the accused only drew \$2.85 so he could not have gone to the place for an immoral purpose.

Pte. (Lee. Cpl.) J. Smith was later brought before the Court and charged with being absent without leave, drunkenness, and striking Ptes. Parkinson and Jones. He pleaded not guilty.

Lt. Humphrey prosecuted and Lt. Reading appeared as prisoner's friend.

The evidence of a Provost Corporal showed that on the 15th inst. accused was seen placing a bottle containing whisky on the guard room step. He was taken to the guard room and detained. He asked by whose orders he was confined and on witness telling him he replied "We will—well fight for it." Accused then hit out striking two soldiers. The guard caught hold of him, removed his boots, searched him and placed him in the guard detention room. Prisoner was improperly dressed.

The Court is proceeding as we go to press.

## ASSAULT CASE.

## PARTIES BOUND OVER.

Two joks of a meat stall in the central market, were summoned before Mr. E. W. Hamilton at the Magistrate's this morning for having assaulted two Sanitary Board coolies on Monday.

The defendants, who were represented by Mr. R. E. A. Webster, cross-summoned the complainants for assault.

The summonses were taken together.

An Indian Sergeant said that he was sent to the market at 6.40 p.m. on Monday in anticipation of some trouble there. When he arrived there, everything was quiet. After he had been there a short while, he saw a man walk up to a Sanitary Board coolie and knock him down the stone steps. The assault was so sudden that the witness could not see who the man's assailant was, but when he got up to the Sanitary Board coolie and helped him to his feet, he pointed out one of the two defendants as his assailant, and the witness arrested him.

Without hearing evidence in the cross-summons, the Magistrate said that in the absence of any independent outside evidence, he would not proceed with the case as he was sure that none of the parties concerned in the case would speak the truth as to who was responsible for starting the trouble.

Mr. Webster agreed and suggested that they should all four be bound over.

The Magistrate bound all four men over in the sum of \$50 each to keep the peace for 6 months.

The Harbour Office has been notified that Dr. R. Hamard, ship's surgeon on the B. & S. steamer "Linna," trading between here and Bangkok died on July 18 from acute dysentery. His widow lives at Homatani.

## "A BRUTE BEAST."

## APPRENTICE ILL-TREATED.

## FORTNIGHT'S JAIL FOR MASTER.

A Yumati shopkeeper was charged before Mr. R. E. Lindsell at the Magistrate's this morning with having ill-treated a 16-year old apprentice on July 24.

According to the case for the prosecution as outlined by Inspector Willis, the boy was sent out to buy some goods, but he wasted his time in the street and returned to the shop late in the evening. This was thought by the defendant to be sufficient reason to ill-treat the lad, and taking hold of a feather duster he fished the boy mercilessly, cutting him badly in the forehead, face and back. The lad's cries aroused the ire of the neighbours and they informed the police.

The boy's back was exhibited to the Magistrate, and although the beating was done three days ago, the wounds could still be distinctly seen.

Dr. Wong of the Kwong Wah Hospital who treated the boy's injuries, said that no father or master had the right to beat a boy to that extent.

The defendant admitted beating the boy, but held that the beating was not excessive.

The Magistrate: His face is badly cut up, and his back too. You are a brute beast.

Defendant: He received the injuries to his head by knocking it against a wall.

Magistrate: It is a lie. You will go to jail for 14 days with hard labour. I won't have masters beat their apprentices like that.

To Inspector Willis, the Magistrate gave instructions for arrangements to be made with the Secretary for Chinese Affairs for the boy's future, remarking that it was obvious that he could not go back to his master.

## UPSET HER RICSHA.

## EUROPEAN LADY'S ALLEGATION.

A street coolie was charged before Mr. R. E. Lindsell this morning with disorderly conduct in Kowloon yesterday afternoon.

According to the police, the man was engaged by Mrs. V. S. Giles, of No. 12, Knutsford Terrace, to bring over some luggage from Hongkong. On arrival at Kowloon, Mrs. Giles gave the defendant 60 cents, 40 cents for himself and the other twenty to pay boat hire. The defendant protested, but Mrs. Giles took no notice and entered a ricksha. Defendant took hold of the ricksha and upset it, causing Mrs. Giles to be thrown heavily out and injured about the arm. Mrs. Giles was slightly indisposed this morning as the result of the fall and was unable to attend Court.

The foreman of a ricksha firm, at No. 140, Canton Road, said that he saw Mrs. Giles come ashore from the ferry launch followed by the defendant who was carrying some luggage, which was put in four rickshas.

Magistrate: Was there much luggage?—The lady had some children with her also.

Some trouble arose over payment of the defendant, and the latter caught Mrs. Giles' ricksha by the hood and upset it. The defendant caught hold of the ricksha to prevent it from getting away. There was no quarrel between the ricksha puller and the defendant.

The defendant said that he did not touch the ricksha, it fell over as the result of a collision with another ricksha.

The Magistrate put the case back until to-morrow for Mrs. Giles to attend Court. The defendant was allowed bail in the sum of \$50.

## GODOWN FIRE.

## TALLOW AND LEATHER DESTROYED.

A fire broke out last night at No. 1, Seizon Lane, West Point, a 2-storied building used as a godown for hide and tallow, by the Wing Fung Ying firm of No. 30, Des Voeux Road West.

The fire brigade received the call at 11.30 p.m., and was on the scene five minutes later with two engines. The flames which were well fed by the tallow, raged furiously and provided an hour's hard work. The firemen were greatly handicapped also by the overpowering fumes of the burning leather, which did not permit near approach to the burning building.

The cause of the fire is not known, and the extent of the damage has not yet been ascertained. The goods in the godown were insured with various companies to the extent of \$153,000.

## CANTON NEWS.

## AN INTERESTING REPORT.

## FOREIGN CONSULS AND SUN.

The foreign Consuls in Canton are reported to have sent a combined communication to Dr. Sun Yat-sen, requesting him to leave Canton. They are also to have approached the Commissioner of Customs and asked him to use his influence with Sun to get him out of the country. While willing to do all in his power, the latter is reported to have said that the power to get Sun's warships out of Pakmotam rested in the hands of the Harbour Master.

Admiral Kwan Shih-tak, the Commander-in-Chief of the neutral ships of the Northern Navy Squadron has written to Sun demanding the return of the four warships under his command and at present stationed at Pakmotam. The communication also referred in a critical vein to the past movement of Sun in Canton previous to the quarrel with General Chan Kwong-ming, and denounced Sun as a "wrong doer." It ended up with an appeal to Sun to go away from Canton, and put an end to the troubled state of the City. The Admiral said that Sun's remaining at Pakmotam was simply causing a lot of anxiety to the citizens of Canton, and could not in any way improve his position as the deposed President of the South, the self-constituted independence of which was never recognised as legal, and now no longer appealed to the people of the South, due to Sun's own behaviour.

Sun's mankuan (Citizen Army) movement in the various districts is now reported to be a failure and meeting with scanty support everywhere. Magistrate Tang Sam of Hoipin, one of his chief recruiting officers who had managed to raise about 1,000 men for the purpose of attacking Kon-moon—has been suppressed by General Chan Tak-chuen, the Station Commander of Hoipin, and he and his men have been driven out of the City.

The Magistrate of Shuntak, Chan Chi-cheng, another of Sun's influential supporters, is also reported to have failed him. Without giving any reason, Chan resigned his post as magistrate and proceeded with his mankuan to the west river. They were met at Taipinggha, in the Namhoi district by Commanders Chan Wing sin and Ying Tam's men from Heungshan and attacked on two sides, suffering very heavy defeat. A launch full of mankuan was reported sunk in the engagement, and five others were captured by Chan's forces. The remainder of the defeated mankuan have fled to the mountains in the vicinity.

It is also reported that the People's Party is very actively anti-Sun in the vicinity of Suiling, but no fighting had occurred there yet. All ferries, steamers and junk plying between Canton and the various districts have stopped for nearly a week, on account of the threatened trouble.

General Ip Kai went up North from Canton this morning to inspect the position of the defenders at Ying-tak, and it is reported that from there he will proceed to the front to personally direct the fighting against the Northern Expeditionary Army.

The fighting in Suikwan is still continuing furiously, and Yeungyin is reported to have been captured and lost three times by the Northern Expeditionary Army. General Hui Sing-oh, the Commander of the invading forces is concentrating all his strength against Yeungyin, but up to the present the defenders of the mountain pass have been more than a match for him. Fighting elsewhere is reported slack.

Mr. Chang San-nam, the Chief of the Ministry of Finance at Canton has gone through the accounts of his ministry and reported that the former chief, Mr. Chang Tin-tan has embezzled \$7,000,000 of public money, and has asked for permission to confiscate all Cheung's property in the country, the principal of which is in Heungshan his native city, estimated to be worth about \$10,000.

A cable from Peking reports that the Government there has sent Mr. Kuk Chung san down South to invite Mr. Tong Sin-yet, who is now in Heungshan to go to Peking, and form a new Cabinet there after the opening of the parliament there on August 1. Mr. Tong's decision is not yet known.

The shields won in connection with the Hongkong Lawn Tennis Association contests will be presented to the winners in the "A." and "B." divisions by Mrs. Claud Severn next Saturday on the Indian Recreation Club ground. Beginning at 4 p.m. matches between "The Rest" versus the winners in each division will be played.

## SERIOUS SHANGHAI STRIKE.

## LIGHTERMAN WALK OUT.

## SHANGHAI July 27.

A serious strike of the Shanghai Tug and Lighter Company's lightermen occurred yesterday. Owing to the employers' refusal of a demand for increased pay the crews of 106 cargo boats walked out. The Company have secured sufficient crews in order to carry on work on the mailboats.—Reuter.

## CONFERENCES WITH CHINA.

## JAPANESE DELEGATES APPOINTED.

## Tokyo, July 26.

Obata, Yoshida and Yabuchi have been formally appointed to negotiate with the Chinese Government in connection with the withdrawal of Post Offices. Yokotake has been appointed to represent Japan in regard to the revision of the Chinese Customs conference.—Reuter.

## HANYANG STRIKE OVER.

## ALL THE MEN GO BACK.

## SHANGHAI, July 26.

Hankow reports of the strike at Hanyang Iron works that some of the men returned to-day and the remainder are expected to-morrow.—Reuter.

## RUSSIAN STEAMER SEIZED.

## SHANGHAI, July 27.

It is reported that the crew of a Russian yacht near Kiangnan arsenal on Tuesday seized a steamer belonging to the Russian volunteer fleet taking prisoner several of the latter's crew. The Chinese authorities are investigating.—Reuter.

## TRAFFIC IN GIRLS.

## STEP-MOTHER ON TRIAL.

Alleged to have procured her own step daughter Dolly Duke for immoral purposes, Mrs. Ethel Duke of Bukit Timah Road stood charged on three counts before Mr. David in the Singapore District Court recently. Court Inspector Lucy appeared for the prosecution, while Mr. J. Battishill represented the defence.

At the outset Inspector Lucy asked that the proceedings be taken in camera, which, his honour said, could be considered after the accused was formally charged.

Mr. Battishill wanted more particulars about the charges which were very vague as they stood. They related to three different persons, but did not specify the time, place and circumstances under which the alleged offence took place. He was entitled to that information under section 159 of the Criminal Procedure Code. The charges stated that the offences were committed about a year ago, and may mean any number of times. That put him in an unfair position as not knowing that case definitely he was to meet.

His Honour: I think that is asking the whole case for the prosecution. As to the charges I take it that each refers to one occasion only.

Inspector Lucy for the prosecution said that it was not possible for the actual dates to be given, but it was evident from the charges that each had reference to one specific occasion. The first was in respect of a man named Hamid committed at his plantation at Katong. The second and third charges had relation to Guan and Pereira respectively in No. 549 Gay-lang Road.

The charges framed under section 313, Ordinance 45 were then read out to the accused, namely that she procured Dolly Duke under the age of 20 for immoral purposes on three different occasions and, alternatively with intimidating her into committing the offence in the said occasions.

Inspector Lucy renewed the application under the Women's and Girls' Protection Ordinance for hearing the case in camera, and in answer to His Honour said that he had no instructions to make that application, but the police wished it for the sake of the girl herself, who would be the first witness in the case.

On Mr. Battishill having no objection, His Honour ordered the court to be cleared of all persons who were not necessary for the trial.

The trial was then proceeded with.

Five cases of plague, one of which proved fatal, were reported yesterday.

Mr. R. K. Modi notifies that he has moved his office to 33 Wyndham Street.

## NEW COMPANY MEETS.

## THE SANDAKAN LIGHT AND POWER COMPANY (1922) LTD.

The first statutory meeting of the shareholders of the newly formed Sandakan Light and Power Company (1922) Ltd. was held in the offices of the general managers (Messrs Shaw, Tomes and Co.) this morning. Mr. B. G. Shewan (Chairman) presided and there were present: Messrs Tong Hok Ting (consulting committee), A. A. Botelho (secretary) and the following shareholders:—Messrs S. F. Chubb, R. Farrar, T. T. Tan Tai, W. J. Hawker, F. J. Tavares, H. H. Taylor, J. Toppin and Poon I Cho. The Chairman said:—

Gentlemen:—This is the Statutory Meeting of Shareholders held in accordance with the requirements of Ordinance No. 53 of 1911.

On the table is a list showing the names, descriptions and addresses of the members of the Company, and the number of Shares held by them respectively, and this list is open and accessible to any shareholder during the continuance of this Meeting.

The Statutory Report was sent out to Shareholders on the 18th instant, and contains all the information required by the Ordinance. Copies of this Report are in your hands, and from it you will be able to see what has been received and disbursed on Capital account in the short time elapsed since the Company was authorised to commence business on the 27th April last.

Ours is but a modest affair at present, but Sandakan is a growing and progressive place and we feel confident that the Concession for the supply of electrical energy for Light and Power which has been taken over by us will in course of time prove valuable and remunerative to this Company. The former Company did a great deal of pioneer work, the benefit of which we shall reap as the demand for electricity increases and the number of our consumers becomes greater. All this is a matter of time, for our experience as General Managers with other Electric Light Companies has taught us that a large number of our customers have to be educated up to the use of both Light and Power before they will relinquish their old methods.

Our Agents in Sandakan, The North Borneo Trading Company Ltd., and all connected with our business there are very sanguine as to the future of the enterprise and in this regard I cannot do better than quote the following extract from a letter from our Agents there which reads as follows:—

"As you are aware, Sandakan, although still in its infancy, is in course of rapid development from which we will assuredly feel the benefit a few years hence. Apart from a reclamation scheme that is in progress for the purpose of increasing building sites, there is a water supply scheme in course of construction, the pumps for which it is proposed to drive by electrical energy, and these when running at full pressure will consume approximately 100 units a day. This coupled with Power to be supplied to the Sandakan Ice and Aerated Water Co. Ltd. and the Slipway Company and to the North Borneo Trading Co. Ltd. will represent a very satisfactory day load and will be augmented by numerous small motors that have already been supplied to Chinese Companies. We are pleased to say that the new plant is now in course of construction and subject to no delay being experienced in the delivery of the switchboard, generator and minor parts, details of which the Resident Engineer has already advised you, its completion can be looked for early in the New Year. The Sawdust Furnace will be working by the end of July, by which means we anticipate reducing our consumption of coal fuel by at least 30% which represents a very appreciable amount as will be seen by reference to our monthly reports."

The new plant to which they refer will be a great improvement to the Station and should effect a substantial reduction in the cost of the output of current and correspondingly improve our net return.

This is all I think I can usefully tell you at this early stage of our existence, but before I sit down, if any shareholder present desires further information on any particular point I shall be pleased to give it to the best of my ability.

There were no questions and the meeting terminated after the Chairman had thanked the shareholders for their attendance.

Mr. P. T. Lambie has booked his return passage to Hongkong by a P. & O. steamer due the first week in November. He reports that bookings ahead were still numerous.

## TYRE TROUBLES.

## GARAGE ACCUSED OF RINGING THE CHANGES.

Before Mr. R. E. Lindsell this morning, Mr. Lu Wei-tun, manager of the Wanchai Motor Garage, appeared on behalf of the proprietor, Mr. Lee Hoi-kee whom the police had not been able to find to answer a charge of fraudulent appropriation of property.

The complainant in the case is Mr. Lau Yik-chak, who alleged that he had entrusted his car No. 678 to the Wanchai Garage to undergo certain small repairs, and on taking delivery of the car yesterday, he discovered that the defendant had taken away two of his new tyres and replaced them by old ones. The new tyres he found on one of the garage cars. The complainant was able to identify his tyres because he had taken the number of all the parts of his car as the result of trouble of a similar nature previously.

The case was remanded until Saturday.

## TO-DAY'S ADVERTISEMENTS.

## NOTICE.

A new Telephone Exchange to serve the Peak Area will be opened on 29th instant. After this date calls for Peak Subscribers may be made by using the present numbers until such time as the new edition of the Telephone Directory is in circulation.

The Hongkong Exchange will be known as Central Exchange dating from 29th instant. When making a call each Subscriber is kindly requested to give the name of the Exchange to which the desired number is connected.

CHINA & JAPAN TELEPHONE & ELECTRIC CO., LTD.

Hongkong, July 27, 1922.

## HONGKONG LAWN TENNIS ASSOCIATION.

THE SHIELDS will be presented to the Winners in the "A" and "B" Divisions by Mrs. SEVERN on SATURDAY, July 29th at the Indian Recreation Club ground. Exhibition Matches will be played "The Rest" versus the Winners in each Division commencing at 4 p.m.

JOHN C. FLETCHER, Hon. Secretary.

Hongkong, July 27, 1922.

## NOTICE OF REMOVAL.

WE have, from THIS DAY, removed our offices to 35, Wyndham Street.

R. K. MODI.

Hongkong, July 27, 1922.

(Full Particulars from Catalogue).

Goods will be on view on Thursday

Terms:—Cash on delivery.

HUGHES & ROUGH, Auctioneers.

Hongkong, July 27, 1922.

## A PRINCE AT THE BAR.

The English Bar maintains its reputation as the most open in the world.

Among the students to be "called" by the Inner Temple this term is a Rumanian subject, Prince Constantin Jon Lams Anthony Demetrius Karadjia, of the Foreign Office, Rumania. Already there are, among other nationalities, French, Dutch and United States members of the English

bar. Indeed, there is nothing to prevent a citizen of any country from qualifying as a barrister here and pleading before our courts a form of hospitality which is mostly not reciprocated. In nearly every other country except England to become a member of the Bar it is necessary first to become naturalised.

Among interesting "domestic" calls this term will be that of Capt. J. Tudor Ross, M.P. and of Mr Cecil Forde, K.C., of the Irish Bar. Both belong to Gray's Inn.

## TO SECRETARIES OF CLUBS AND OTHER INSTITUTIONS.

ALL preliminary notices of forthcoming meetings, lectures and entertainments, sent for insertion in the news columns of the China Mail, are charged for at the rate of \$1 each, (as announced in May and June of last year) providing that they do not occupy more than four lines. In future if this space is exceeded they will be placed in the advertising columns at the prevailing rates.

The TELEPHONE HANDBOOK has met a want which has long been felt amongst users of the Telephone, as it provides an easy means of ascertaining the name of the Subscriber without the necessity of a search through the ordinary alphabetical directory.

The TELEPHONE HANDBOOK costs \$1 per copy and is sold on the strict understanding that on the publication of a new one the old one will be returned to the publishers. This proviso is made in the interests of Subscribers in view of the frequent changes that take place.

## ORDER.

THE HONGKONG DOLLAR DIRECTORY CO., 5, Wyndham St. Please supply me with a copy of the July—December 1922 issue of the Telephone Handbook at \$1 per copy. I agree to return this copy to you on application when a new Handbook is published.

Communications relating to news should  
be addressed to THE EDITOR.  
Correspondents must forward their  
names and addresses with any communica-  
tion addressed to the Editor, not necessarily  
for publication but as evidence of good  
faith.  
All matters for publication should be  
written on one side of the paper only.

Letters relating to business should be  
directed to THE MANAGER.  
Rate of subscription to "The China Mail" is  
\$30 per annum per quarter and per man  
son pro rata.  
Orders for extra copies of the "China  
Mail" should be sent as soon as possible as  
the supply is limited. Cash 10 cts. Credit  
12 cts. per copy.

## MAROONED. ON AN ICE ISLAND. PENGUINS' HUMAN WAYS.

A home paper publishes the story  
of the adventures of Mr. T. Bagshaw,  
of Cambridge University, and Mr.  
M. G. Lester, a young officer of the  
British Mercantile Service, who  
formed part of the British Imperial  
Antarctic Expedition which left Lon-  
don in September 1920 and were  
marooned on an ice-bound island for  
twelve months.

The two adventurers landed at  
Newcastle-on-Tyne recently, having  
been brought home by Norwegian  
whalers who effected their rescue.  
The expedition of which they  
formed part consisted of four men,  
and it was intended to chart the  
western shores of the Weddell Sea—the  
vast stronghold where the late  
Sir Ernest Shackleton's ship "Endur-  
ance" was crushed and sunk—and to  
carry out other scientific work. The  
party was conveyed to the Antarctic  
in Norwegian whalers and the four  
men were landed off the coast of  
Graham's Land at Andvord Bay. The  
little party found it impossible to  
cross the ice mountain carrying with  
them sufficient food to enable them  
to put their plans into execution, and  
during February 1921 the leader of  
the expedition decided to go to Mon-  
tevideo to obtain a small vessel in  
which to reach Cape Hope during the  
following season, while the second in  
command of the party announced his  
intention of leaving the expedition.

Mr. Bagshaw and Mr. Lester,  
anxious that the work should be ac-  
complished, volunteered to remain at  
Andvord Bay until the leader return-  
ed, their duties being to carry out  
scientific work and attend to the  
dogs.

But the difficulty was to reach the  
nearest whaling base in time to get a  
passage in one of the ships then about  
to leave Montevideo. The whalers' base  
was many miles distant, and to  
reach this a voyage in the lifeboat  
was necessary, while one of the  
party would be compelled to remain  
behind and attend to the dogs and  
continue the meteorological observa-  
tions.

This duty was undertaken by Mr.  
Bagshaw.

### ABSOLUTELY ALONE.

"For a week," said Mr. Bagshaw  
to a Central News representative at  
Christiansia, "I was absolutely alone,  
and I have never felt so miserable in  
all my life. I did not know whether  
the party would reach the whalers' base  
safely or not, and when fog and  
the blizzards came up I was very  
anxious concerning them. My home  
was on a tiny island, not 30 feet  
above the water level at the highest  
point, and my habitation an old  
abandoned boat, which we had rigged  
up as a temporary hut with the aid of  
sides taken from packing cases.

"For companions I had a few dogs  
and some thousands of penguins,  
while occasionally a huge sea elephant  
would flounder ashore and stare at  
me. You can imagine my relief a  
week later to see a little catcher  
steaming up, towing the lifeboat.

Lester was aboard the catcher, which  
departed after he had landed.  
"We gathered together all the  
timber we could find, packing cases  
and such like, and after covering the  
deck of the boat with canvas we  
built a hut over her, which we  
christened 'The Lounge.'

"Our one source of trouble was  
that we could not put windows in the  
hut, so that, save for the doorway,  
it was impossible for daylight to  
penetrate. Always we had had to  
keep candles burning, and when we  
were rescued our stock of these  
amounted to but twenty.

"Out of empty kerosene tins Lester  
and I made a useful Dutch oven for  
roasting seal and penguin flesh, while  
shovels and pickers were also fash-  
ioned from tins. We worked from dawn  
till dark for weeks on end preparing  
ourselves for the winter. Tons of  
stores had to be moved to the cover  
which the huts provided. Seals and  
penguins had to be caught and killed.  
We killed 200 penguins and 30 seals,  
leaving their bodies stacked near the  
huts to freeze.

"Every two hours during the day  
for forty days we took meteorological  
observations; hourly we took tide  
readings. We carried out a survey of  
the locality and have been able to add  
much important information regard-

ing the region of Andvord Bay, and  
have proved existing charts to be  
wrong in many respects.

### PENGUINS' WAYS.

"Both Lester and I made a very  
careful study of the penguins, their  
ways and habits, while we obtained  
numerous photographs of these  
strange and interesting birds.  
"Lester and I caught many penguins  
and marked them with ink. We kept  
them under observation the whole  
time they were on the island. Each  
bird we marked was given a name, so  
we had 'Mr. and Mrs. Sarah,' who  
built their nest on the step of our  
meteorological screen, and who used  
to peck our feet when we took read-  
ings; 'Mr. and Mrs. Atabella,' who  
nested next door; 'Mr. and Mrs.  
Harriet,' and 'Mr. Harrison,' an un-  
attached bachelor much in love with  
'Mrs. Harriet,' greatly to the annoy-  
ance of the lady's husband.

"Penguins are strangely human in  
many respects. There are the 'mar-  
ried couples' living together, some of  
the couples models of domestic hap-  
piness, others the reverse, just as in  
human beings; single penguins of both  
sexes 'flappers' and 'glad-eyes.'  
While some 'husbands' remained  
faithful to their 'wives' and some  
wives to their husbands others did  
not. 'Mrs. Harriet,' was a 'glad-  
eye' of this kind, and 'Mr. Harrison,'  
suffered more than one sound  
thrashing when caught by the 'wife's  
'husband' of 'Mrs. Harriet' too  
near the domestic hearth.

"I come to the conclusion that  
'Mrs. Harriet' was guilty of 'entour-  
aging' 'Mr. Harrison,' and that a good  
thrashing would not do her any harm.  
'Mr. Harriet' seemed to hold the  
same view, and one afternoon  
administered a sound thrashing to  
both the lady and her lover. But it  
did not seem to cure her, although  
'Mr. Harrison' did not come round  
for several days after that incident."

### CAN YOU AFFORD THE RISK?

Were you ever seized with a severe  
attack of cramp, colic or diarrhoea with-  
out a bottle of Chamberlain's Colic,  
Stomach and Bowel Remedy? Do not  
take such risks. Ask a doctor or your  
pharmacist for a bottle of Chamberlain's  
Colic, Stomach and Bowel Remedy. It  
is a safe and effective remedy for all  
such ailments, and it is a fact that  
it has saved many lives.

## Chesterfield CIGARETTES

of finest Turkish and American tobaccos—blended

### Taste is a matter of tobacco quality

We state it as our honest  
belief that the tobaccos used in  
Chesterfield are of finer quality  
(and hence of better taste)  
than in any other cigarette at  
the price.

## DRAMA OF DRESS.

### CRITICS' MURDEROUS CONSPIRACY.

Two strangers, flaunting gorgeous  
scarlet and black costumes, were in-  
troduced to a commonplace and  
dowdy gathering in Regent's Park,  
N.W. The newcomers were first  
mobbed and then murdered. They  
were two of the Zoo's beautiful South  
American scarlet tanagers, which had  
been taken from their cages and re-  
leased in an outdoor summer aviary.

The African buntings in their black  
and tan livery objected to, being out-  
shone and made spiteful remarks  
about "Vampires" and "Hussies."  
A British white sparrow spoke of  
"bad taste and worse form," and  
compared their frocks with her own  
dingy muslin. The Quaker-like quails  
assumed a pious disgust, and the  
Australian cat-bird pussy-footed after  
them and started a general mobbing.

The poor tanagers never had a  
chance. Pecked by the buntings and  
stalked by the vicious cat-bird, they  
lost all interest in eligible building  
sites.

By the morning the murder-  
conspiracy was a complete success—  
the beautiful crimson and black  
feather dresses clothed two stiff little  
bodies.

## FARES FOR PUBLIC VEHICLES.

### CHAIRS.

I.—In Victoria, with two Drivers.

**WHAT TO EAT, AND HOW.**

The Importance of the Digestion.

Easy to get, hard to get rid of: that is  
what most sufferers think of dyspepsia.  
They are astonished when their stomachs  
begin to trouble them early in the day.  
They can't think of any adequate cause.  
They have been eating hurriedly and  
irregularly for a long time to be sure,  
but they supposed their stomachs were  
quite used to that. Why should their  
stomachs fail all at once and make them  
restless and sleepless and faint and  
dizzy?

Many people know by experience that  
the strength which the weak stomach  
needs, and for the lack of which the  
whole body is suffering, can be found  
easily and quickly in Dr. Williams' pink  
pills. In hundreds of cases of indiges-  
tion and dyspepsia these pills have  
proved effective where other remedies  
have failed. The reason is that Dr.  
Williams' pink pills make new rich blood  
and enable them to perform their work.  
The appetite returns, the nerves are  
strengthened and the whole system toned up.

If what to eat is your problem, it is  
solved by the Diet book to be obtained  
free from the Dr. Williams' Medicine  
Co., 98 Macleod Road, Shanghai. Write  
for a copy to-day.

Now is the time to begin Dr. Williams' pink pills. From any dealer; or direct from above address, \$1.50 per bottle, 89¢ for six bottles, post free. For men and women too.

**HUGO STINNES' FLEET.**

FIRST STEAMER COMING EAST  
IN NOVEMBER.

Capt. Baardling, representative of  
Hugo Stinnes Lines, armed with a  
special permit from the British  
Foreign Office, arrived in Singapore  
recently to fix up local arrangements  
in connection with the forthcoming  
arrival of the "Emil Kirdoff," the first  
steamer of the new German line the  
Hugo Stinnes Line, from Hamburg to  
the Far East. The "Kirdoff" will leave  
Hamburg in October, when the present  
restrictions with regard to the  
landing of German passengers are  
removed. She is one of six vessels  
which will be engaged on this route,  
the others being the "Karl Leghien,"  
"Von Bayer," "Helm," "Tirpitz" and  
"Ludendorff" respectively. Four of  
these vessels are entirely new ships  
each of 9,000 tons. They consume oil  
fuel and are said to be well equipped  
for passenger accommodation.

The "Karl Leghien" is the first  
merchant ship to leave the building  
yards at Kiel, which were formerly  
only used for the construction of war  
vessels. The other two steamers are  
of 12,000 tons each, and have been in  
use for two years. They have addi-  
tional accommodation for freight, but  
their passenger accommodation is not  
so large as that of the vessels of  
smaller tonnage. The former will ac-  
commodate only about thirty-five  
passengers, while there is accommoda-  
tion in the new vessels for seventy-  
five. In common with the practice  
of the North-German Lloyd vessels,  
there will be only one class accom-  
modation.

**THE RUNNING.**

For the present there will be one  
outward and one homeward steamer  
per month but when conditions im-  
prove other vessels will be transferred  
from the Hamburg-South America  
Line. The ports of call on the out-  
ward voyage will be, from Hamburg,  
to Bremen, Rotterdam, Dover  
(passengers only), Antwerp, Naples,  
Port Said, Colombo, Penang or  
Belawan, Singapore, Hongkong,  
Manila, Shanghai and Japan. The  
vessels will also carry mail. With  
regard to rates the freightage will be  
the same as those of the other com-  
panies engaged in the Far East's trade,  
while the passenger rates, although  
there is no definite information to hand  
at present, will be cheaper. The ac-  
commodation for passengers is up to-  
date on all the steamers. Special  
provision has been made for tropical  
conditions, while the arrangements  
include an electric laundry, which will  
enable passengers to have their  
clothing washed and available in  
twenty-four hours.

Hugo Stinnes, the great German  
financier, is also the controller of the  
Hamburg-South America Line, and  
with these vessels he will after a period  
of only two years, have ships of no  
less a tonnage than 225,000, in  
commission.

Captain Baardling who is the  
Eastern representative of the  
company, and has proceeded to Java  
was the Captain of the North-German  
Lloyd steamer "Nafuna," which at  
one time plied between Penang and  
Manila.

**A WASTE OF GOOD FOOD.**

Food that you eat and do not digest  
is worse than wasted. Not only will you  
not get benefit from it, but it will ferment  
and give you stomach pains. To get  
strength and nourishment from your  
food your blood must be pure, and to  
make rich red blood there is nothing to  
equal Dr. Williams' pink pills. A course  
of these pills will strengthen the diges-  
tion, and enable you to obtain full  
nourishment from the food you eat.  
Read the article, "What to Eat and  
How," on this page.

**FOR THE TENNIS COURT.**

WHAT TO WEAR.

Tennis (says a writer in a home  
paper) is booming. Never before in  
the history of the game has there  
been such a demand for tennis grounds  
and gear. What effect must this  
popularity of the game have upon  
suitable kit? In view of this, I will  
discuss flannels which are suitable for  
either tennis or cricket.

Of all garments, the most important  
are trousers. That they should fit  
properly around the waist and be the  
right length and width in the leg is  
necessary to the player's comfort, as  
well as adding very much to his style  
and appearance.

There are various materials recom-  
mended, notably cream flannel,  
gabardine, gabardette, or herring-  
bone. The latter is the most luxur-  
ious. It is a 13-14oz. weight flannel,  
extremely light in texture, tailors  
well and washes or cleans excellently.  
Tennis trousers should be perfectly  
tight-fitting at the waist to obviate  
any slipping.

The custom of wearing a belt or  
sash is fast falling into disuse, pre-  
ference being for trousers made with  
a belt at the waistline. The super-  
fluous material above the hips is re-  
moved by two vertical seams placed  
on either hip. These seams are really  
two cuts from which the extra material  
is taken and the seam again sewn up.  
This forms the waist of the trousers  
into a corset-like effect, and does away  
with the necessity of belts or sashes.

**THE BEST SUIT.**

There are many ideas in regard to  
belts. I have seen a belt of the  
material run round the top of the  
trousers inside the material, with the  
buckle just showing in front. I have  
also seen a strap and buckle placed  
on the waistline above the hip for  
tightening the trousers at this point,  
but these do not look nearly so nice  
as the waist-fitting trousers.

The most comfortable shirt I know  
is one which has shorts attached,  
made with a double collar not unlike  
the old polo shape that is not meant  
to be worn closed. This shirt buttons  
the whole way down from the neck.  
The addition of the shorts prevents  
rucking up around the waist. The  
materials most suited are taffeta,  
cream flannel silks, crepe de Chine,  
mercerized cotton, or cellular.

Neckties, if worn, should be school,  
club, or regimental colours, but now-  
adays, more often than not, the tie is  
dispensed with.

**WHITE OR CREAM SOCKS.**

Socks are all-important. Ribbed  
wool fit best. Cashmere are lighter  
in weight, but the thicker the socks  
the more comfortable they are. They  
should always be white or cream.  
Colours should never be worn.

The tennis shoe is a subject that  
opens up channels for discussion. I  
have talked with many professionals  
who are all agreed that the white  
buckskin or canvas shoe, with a thick  
vulcanized rubber sole, is the best.  
By the way, this rubber is taken from  
matured trees fifty to a hundred  
years old, and is said to be the only  
kind of sole that will withstand hard  
courts.

The accessories for cricket or tennis  
wear are many, but no man should be  
without a sweater. They are in-  
valuable after play, or on cold days.  
There is a decided vogue for a sweater  
which is pulled on over the head,  
having no collar, but a deep "V"  
neck opening.

Down on the Riviera last February  
at Cannes and Monte Carlo I saw  
many notable tennis players wearing  
this kind, but without any sleeves.  
Sometimes they were in shades of pale  
yellow, cream, grey, or natural, but,  
for all-round wear, the most useful  
for white or cream. The same shaped  
sweater, in a thick cable stitch, with  
sleeves, having school or club colours  
worked in at the neck, sleeves, and  
round the waistline, is more general.

Sweater coats or cardigans in white  
or colours came into vogue a few  
years ago, and have much in their  
favour.

Almost any kind of headgear may  
be worn for tennis or cricket. I favour  
the cream soft hat, having a narrow  
white ribbon, but the straw boater,  
green-grey or brown soft felt hat is  
equally good.

Underclothing is very important. I  
content it is more comfortable to play  
in a texture that has wool in it, and  
a combination of wool and cotton,  
merino, or silk and wool has far  
greater absorbent qualities than linen  
or cotton materials.

Navy blue flannel blazers are best,  
but if one does not possess school or  
college colours grey single or double-  
breasted jackets are nice. The latter  
is very useful and economical, for it is  
to be had ready made, and, with the  
popularity of "greys" or grey  
flannel trousers, the jacket does double  
service. Grey flannel trousers do not  
look right, and are not recommended  
for tennis or cricket.

**CONSIGNEES' NOTICES.**

Goods arriving by the s.s. "Africa"  
remaining undelivered after August 1  
will be subject to rent. On the date  
mentioned damaged cargo will be  
examined. Agents—Manners and Beck-  
house Ltd.

Cargo arriving from the s.s. "Pangloss"  
not delivered by August 1 will be sub-  
ject to rent. On the date mentioned  
damaged cargo will be examined.  
Agents—Gibb, Livingston & Co., Ltd.  
Goods by the s.s. "Halic" will be  
subject to rent after August 1 when  
damaged cargo will be examined. Agents,

**WHERE ARE THE TEN  
CENT PIECES?**

SUDDEN DEARTH OF A  
USEFUL AND NECESSARY  
COIN: ONLY THE TWENTIES  
PLENTIFUL.

The alarming shortage of 10-cent  
pieces lately is creating much com-  
ment and even more inconvenience,  
says the *Shanghai News*. It is almost  
impossible to get hold of any for ricksha  
fares and on the tram the other morn-  
ing upon a passenger proffering a 20-  
cent piece for a six-cent fare the con-  
ductor had to call on the conductor  
of the trailer for assistance and then  
there was further delay until another  
passenger happened to pay in one of  
these rare coins. In another case 13  
coppers were given in change for a  
nine-cent fare out of a 20-cent piece.

An exchange shop will hand you  
out five 20-cent pieces, one 10-cent  
piece and six coppers in exchange for  
a dollar. Sometimes you can extract  
two tens for one of these twenties.  
Sometimes you cannot. The answer  
frequently comes, "No can do," and  
the change drawer is exhibited to  
show you the small number of 10-cent  
pieces remaining. "What for no can  
do?" you pursue, and the reply is,  
"No can catches" or "Too much cost."  
"All have go Ningpo side."  
"Ten cents belong too much silver,  
make 20-cent." "All time catches  
new 20-cent, old 10-cent pieces no  
more make," and the like.

Among foreigners the rumours are  
varied. One has it that the Riksha  
Coolie's Guild is exporting all 10-cent  
pieces, not only for profit in exchange  
but because they hope to get 20-cent  
fares in consequence, trusting to the  
thriftless foreigners not to carry  
coppers about. But this is surely a  
libel. Another has just heard on the  
best of authority that the Customs has  
held up a million dollars' worth of  
the missing coins, and a third has all  
the details of a dark conspiracy  
entered into by chauffeurs. Number  
One boys, delivery men and other  
tipable servants to put the ignoble  
10-cent piece out of sight.

There is no mistake about it,  
however, that the 10-cent piece is  
growing unobtainably less. The  
Customs admits that several small  
shipments of light-weight subsidiary  
coins have been seized by them  
according to instructions—new 10 and

20-cent pieces from Canton, South  
Manchuria, and Kuantung—and the  
Chinese officials notified. But their  
seizures have been too small to make  
so widespread a shortage of the  
10-cent pieces and 20-cent pieces  
have been included in the holdings.  
The Chinese Chamber of Commerce  
is apprehensive lest Shanghai be  
flooded with depreciated coinage and  
is trying to keep out debased coins.

**A QUESTION OF SILVER VALUES.**

There is a general agreement among  
exchange brokers, compradores and  
banks that the new 20-cent pieces do  
not possess the same amount of silver  
as two of the 10-cent coins. Hence  
it is much more to the advantage of  
the Tsohans who control provincial  
coinage to melt up 10-cent pieces  
and mint twenties, making three  
twenties grow where peradventure five  
tens did before. So simple, so effor-  
tent! But so discouraging to any  
ideals of uniform currency for China.

There are also those who say that the  
officials who make a profit on coinage  
find it a better paying business to  
manufacture one 20-cent piece than  
to bother with two 10-cent coins.  
And "Bad money will always drive  
out good" say these cynical bankers.  
Reports drift up to Shanghai that  
Ningpo is refusing to accept any 20-  
cent pieces except the old Canton  
coins and those from Hupeh  
and Kiangnan, and that consequently  
many 10-cent pieces are being shipped  
there. Why Fukien cannot do as  
much is unknown, but it is  
alleged that Foochow merchants  
have been forced to accept  
greatly depreciated coins. Light-  
weight coinage is all too popular at  
present, as is evidenced by the flag  
coppers and the disappearance of the  
Mexican dollars, which have gone into  
the mint to come out newer and  
lighter Chinese dollars. In the mean-  
time, while the Federal Government  
is stabilizing its currency, in company  
with a few other matters, where are  
we to get ricksha fares?

**DON'T NEGLECT YOUR FAMILY.**

When you fail to provide your family  
with a bottle of Chamberlain's Colic and  
Diarrhoea Remedy at this season of the  
year, you are neglecting them, as bowel  
complaint is sure to be prevalent, and  
it is a dangerous a malady to be trifled  
with. This is especially true if there are  
children in the family. A dose or two of  
this remedy will place the trouble within  
control and perhaps save a life, or at  
least a doctor's bill. For sale by all  
Chemists and Storekeepers.
